

# **General Assembly Meeting of the European Astrobiology Institute**

**Liblice, 28-30 May 2019**

## **Resolution 7**

A Project Team is created on the subject “Impacts and their role in the evolution of Planets, Moons and Life”. The main scientific subjects the team will deal with are as follows:

- Impacts, the Early History of the Solar System and the Formation of the Moon
- Delivery of Volatiles to the inner solar system by impacts
- Environmental Consequences of Impacts
- Impacts as Threats for Life and Humankind
- Impact Craters and Impact Hydrothermal Systems as Habitats for Life on Earth and other planetary bodies

The team will provide an interdisciplinary forum of scientists from different backgrounds It will also explore the potential of impacts as subjects for Science Training, Education and Outreach.

Anna Łosiak is elected as a coordinator of the Project Team.
