

General Assembly Meeting of the European Astrobiology Institute

Liblice, 28-30 May 2019

Resolution 8

A Project Team is created on the subject “**Science Fiction as a tool for Astrobiology outreach and Education**”. The main tasks of the team are as follows:

1. to develop an axis of research on the history and nature of the links between science and fiction, as well as the role of the imagination of science fiction in scientific research.
2. to provide fora to foster exchanges between writers and scientists around the themes developed in the European Astrobiology Institute. Such fora can take the form of writing workshops, led by authors and scientists, partnerships with European festival, conferences and roundtables.
3. to create a programme on videos popularizing science through science fiction

Natacha Vas-Deyres (France) is appointed coordinator of the project team
